National Insurance and Social Security (NIS) — Barbados

NIS Online Social Security Service Registration Form

Form Specification | Service Pattern Analysis

FORM PURPOSE: This is a portal onboarding / account registration form — not a benefit claim or compliance submission. Its sole purpose is to register a person for access to the NIS Online Social Security Service (the NIS digital portal). It is the shortest and most focused form in this series. It also contains a special Overseas Registration variant requiring a Notarial Certificate — a new pattern not seen in any previous form.

Form Metadata

Attribute	Detail
Form Name	NIS Online Social Security Service Registration Form
Form Code	Not specified on form
MDA	National Insurance and Social Security (NIS) — Barbados
Purpose	Registers an individual for access to the NIS Online Social Security Service (digital portal). Upon successful registration, the applicant's username and password are sent electronically to their registered email address.
Completed By	Individual applicant — self-service (no officer role)
Registration Variants	Standard (Barbados-based) — requires valid photo ID (Barbados ID Card or Passport)Overseas — additionally requires a Notarial Certificate signed by a notary public
Credentials Delivery	Username and password sent by email to the address provided on this form — email address is therefore REQUIRED and is the most critical field
Complexity	Easy
Estimated Time	~5 minutes
Total Fields	~22 fields across 3 sections (Personal Information, Declaration, Overseas Notarial Certificate — conditional)
Flow Type	Single-page paper form — to be digitised as a Single Page or 2-Step form (standard) or 3-Step (overseas variant)
Date Analyzed	March 16, 2026
Last updated	March 24, 2026
Analyzed By	GovTech Barbados Service Design Team

i This form is the entry point to the NIS digital portal. In the context of a fully digital NIS service, this form becomes redundant — online registration would happen directly within the portal itself. However, the paper form must be analysed for its transition-phase digital equivalent, where offline applicants (or overseas applicants) need a managed onboarding route.

Service Pattern Pages: Applicability Check

The following pages from the Build-Ready Service Pattern Template apply to this form:

☑ 1. Start Page — REQUIRED (absent from paper form; single paragraph of context needed for digital)
☑ 2. Eligibility Page — Minimal: residency check (Barbados-based vs. overseas) determines which variant applies
☑ 3. Applicant Details Page — REQUIRED ✓ (Personal Information section: Name, NIN, NRN, Address, Contact — standard blocks)
☐ 4. Criteria & Entitlement Page — Not applicable (no entitlement rules; registration is open to all NIS members)
☐ 5. Evidence-Based Questions Page — Not applicable for standard route; overseas variant requires notarial details
☑ 6. External Evidence Upload Page — Conditional ✓ (overseas variant: upload of Notarial Certificate)
☑ 7. Check Your Answers Page — REQUIRED (absent from paper form; especially important since email is credential delivery method)
☑ 8. Payment & Submit Page — No Payment version ✓ (Declaration + Signature; credentials sent to email)
☑ 9. Confirmation & Next Steps Page — REQUIRED (absent from paper form; credential delivery notice)

⚠ The most critical field on this entire form is the Email Address — it is the credential delivery channel. If the email address is wrong, the applicant cannot access the portal. The digital service must include an email confirmation field (enter twice) and a clear warning on the Check Your Answers page.

PAGE 1 — START PAGE (To Be Created for Digital Service)

Element	Recommended Content
Form Title (H1)	Register for the NIS Online Social Security Service
Last Updated	Last updated on [publication date]
Service Description	Use this service to register for online access to your NIS account. Once registered, you will be able to view your contribution history, benefit status, and other NIS services online. Your username and password will be sent to your email address after registration.
Residency Gate	Are you based in Barbados or overseas?• If based in Barbados — complete the standard registration below• If based overseas — you will also need a Notarial Certificate signed by a notary public in your country of residence
Complete in One Go	You should complete your registration in one go. At the moment, it is not possible to save your answers and come back to them later.
How long does it take?	It shouldn't take longer than 5 minutes for Barbados-based applicants. Overseas applicants will also need to arrange a Notarial Certificate.
What you will need	• Your National Insurance Number• Your National Registration Number• Your home address and mailing address (if different)• A valid email address — your login credentials will be sent here• Valid photo ID: Barbados ID Card or Passport• If overseas: a Notarial Certificate signed by a notary public

Element	Recommended Content
What happens after?	Your registration will be processed by NIS. Your username and password will be sent electronically to your registered email address. You can then log in to the NIS Online Social Security Service.
Start Button	"Start now" — green primary button

PAGE 2 — ELIGIBILITY: RESIDENCY & IDENTIFICATION TYPE GATE

Purpose: Determines whether the applicant is Barbados-based or overseas (triggering the Notarial Certificate requirement), and which photo ID type they are presenting.

Question	Component	Options	Required	Gate Logic
Where are you currently based?	Radio Buttons	In Barbados | Overseas	Yes	If Overseas → show Overseas Registration section (Notarial Certificate block)If In Barbados → standard registration only
Identification Presented (valid photo ID required)	Checkbox (select one)	Barbados ID Card | Passport	Yes — one must be selected	Determines which ID fields to show:Barbados ID Card → NRN field (pre-populated from ID)Passport → Passport Number field (from Conditional ID Block — established pattern)

⚠ The paper form shows both 'Barbados ID Card' and 'Passport' as checkbox options under 'Identification Presented'. In the digital service, selecting Barbados ID Card should auto-link to the National Registration Number field (already collected). Selecting Passport should trigger additional passport details fields consistent with the Conditional Identification Block established in the NIS Self-Employment Registration form.

PAGE 3 — APPLICANT DETAILS (Paper Form: Personal Information Section)

ℹ The Personal Information section maps directly to the four standard blocks established across this form series. All blocks appear here in their fullest combined expression, including both a Home Address and a conditional Mailing Address — a new dual-address pattern not previously seen.

Block A — Name Block ☑ Applies (Standard split — 7th occurrence of series)

Field Name	Component	Label / Help Text	Required	Validation
Last Name	Text Input	Label: "Last Name"Note: Paper form uses 'Full Name' with sub-label '(Last Name, First Name, Middle Name)' — digital should split into standard fields	Yes	Max 100 chars
First Name	Text Input	Label: "First Name"	Yes	Max 100 chars

Field Name	Component	Label / Help Text	Required	Validation
Middle Name(s)	Text Input	Label: "Middle Name(s)"Help: "Optional. Include all middle names."	No	Max 200 chars

Block B — Personal Details Block ☑ Applies (NIN + NRN)

Field Name	Component	Label / Help Text	Required	Validation
National Insurance Number	Text Input (ID)	Label: "National Insurance No."Note: Paper form shows boxed cells indicating a fixed-length numeric formatHelp: "Find this on your NIS card or payslip"	Yes	Numeric; verify exact length with NIS
National Registration Number	Text Input (ID)	Label: "National Registration No."Format: YYMMDD-XXXX (shown as segmented boxes on paper form)Help: "Find this on your National ID card"	Yes	Pattern: YYMMDD-XXXX

Block C — Dual Address Block ☑ Applies (Home Address + Conditional Mailing Address — New Pattern)

⚑ NEW PATTERN: Dual Address Block. This form collects a Home Address AND a separate Mailing Address (shown only if different from home address). This is the first form in this series to include a conditional second address. The Mailing Address uses the same Barbados Address Block structure but adds City, State/Province, and Country fields — indicating it may be used by overseas applicants. This should be documented as a new Dual Address Block pattern.

Field Name	Component	Label / Help Text	Required	Validation / Notes
Home Street Address	Text Input	Label: "Home Address"	Yes	Max 200 chars
Home City	Text Input	Label: "City"Note: Paper form includes City + State fields — broader than the standard Parish-only Barbados Address Block; accounts for overseas addresses	Yes	Max 100 chars
Home State/Province	Text Input	Label: "State / Province"Note: For Barbados-based applicants, this maps to Parish; for overseas, it is a state/province	No	Max 100 chars; consider showing Parish dropdown for Barbados, free-text for overseas
Home Postal Code	Text Input	Label: "Postal Code"Prefix: BB for BarbadosHelp: "Enter BB followed by 5 digits for Barbados postal codes"	No	Pattern: BB[0-9]{5} if Barbados; free-text if overseas
Home Country	Dropdown Select	Label: "Country"Default: BarbadosNote: Paper form	Yes	Must select one; full country list

Field Name	Component	Label / Help Text	Required	Validation / Notes
		includes a Country field — broadens the address block for international use		

Mailing Address Field	Component	Label / Help Text	Required	Validation / Notes
Mailing Address checkbox	Checkbox	Label: "Mailing Address (if different from address above)"Note: If unchecked, mailing address = home address	No	Triggers mailing address fields if checked
Mailing Street Address	Text Input	Label: "Mailing Address"	Conditional	Max 200 chars
Mailing City	Text Input	Label: "City"	Conditional	Max 100 chars
Mailing State/Province	Text Input	Label: "State / Province"	Conditional	Max 100 chars
Mailing Postal Code	Text Input	Label: "Postal Code"	No	Free-text if conditional; BB[0-9]{5} if Barbados
Mailing Country	Dropdown Select	Label: "Country"	Conditional	Must select one

ℹ Barbados Address Block — 7th occurrence. This instance is the most internationally flexible version, with City, State/Province, and Country fields added to support overseas applicants. The standard Barbados Address Block (Street + District + Parish + Postal Code) should be retained for Barbados-based users, with the international variant triggered when Country ≠ Barbados.

Block D — Contact Block ☑ Applies (Telephone + Cell + Work + Email — Fullest expression)

Field Name	Component	Label / Help Text	Required	Validation / Notes
Telephone (Home)	Tel Input	Label: "Tel."Format: Area Code + XXX-XXXXNote: Paper shows Area Code separated from number	No	Pattern: [0-9]{3}-[0-9]{3}-[0-9]{4}
Cell	Tel Input	Label: "Cell"Format: Area Code + XXX-XXXX	No	Pattern: [0-9]{3}-[0-9]{3}-[0-9]{4}; recommend at least one of Tel/Cell required
Work	Tel Input	Label: "Work"Format: Area Code + XXX-XXXXNote: First appearance of a Work telephone field across this series	No	Pattern: [0-9]{3}-[0-9]{3}-[0-9]{4}

Field Name	Component	Label / Help Text	Required	Validation / Notes
Email Address	Email Input	Label: "Email Address (required)"Note: Paper form explicitly marks this as required — it is the portal credential delivery channelPlaceholder: "yourname@example.com"Help: "Your username and password will be sent to this email address. Ensure it is correct."	Yes	Valid email format; max 100 chars; MUST add Email Confirmation field in digital service

⚠ This is the first form in the series to include a Work telephone field in addition to Tel and Cell. It is also the form where Email Address is most explicitly critical — the paper form labels it '(required)'. The digital service MUST include an 'Confirm Email Address' field to prevent credential delivery failure due to typos.

PAGE 4 — OVERSEAS NOTARIAL CERTIFICATE (Conditional — Overseas Applicants Only)

⚑ NEW PATTERN: Overseas Notarial Certificate Block. This section only applies to applicants registering from outside Barbados. A notary public in the applicant's country of residence must certify that the applicant personally appeared before them, signed the document, and is the person they claim to be. This is a more formal version of the Approved Witness Block seen on the Central Bank Pensioner Declaration — but with an internationally recognised notarial standard rather than the AML/CFT Appendix 5 list.

Purpose: Provides overseas identity verification equivalent to in-person photo ID checking for Barbados-based applicants. The notary certifies the applicant's identity and the execution of the form.

Block E — Overseas Notarial Certificate Block ☑ Conditional (Overseas applicants only)

Field Name	Component	Label / Help Text	Required	Validation / Notes
Notary Public Full Name	Text Input	Label: "Notary Public Name"Source from declaration: 'I [name], Notary Public in and for the Country/State/Province/County (location)'Help: "Full name of the notary public who is certifying this document"	Conditional (overseas)	Max 200 chars
Notary Jurisdiction — Country/State/Province/County	Text Input	Label: "Notary Jurisdiction"Help: "The country, state, province, or county in which the notary public is commissioned"Note: Paper form has two separate instances of 'Country/State/Province/County' — one for the notary's	Conditional (overseas)	Max 200 chars

Field Name	Component	Label / Help Text	Required	Validation / Notes
		jurisdiction, one for their seal details		
Date of Notarisation (Day)	Number Input	Label: "Day"Note: Paper form has '___day of [month/year 20__]' — digital should use a single date picker	Conditional (overseas)	Integer 1–31
Date of Notarisation (Month/Year)	Date Picker	Label: "Date of Notarisation"Format: YYYY-MM-DDNote: Consolidates the paper form's split day/year fields	Conditional (overseas)	Cannot be future date
Notary Appeared Statement	Static Text + Checkbox	Static text: 'I do hereby certify that on the above date, the named person personally came and appeared before me, identified themselves, and duly signed, sealed and delivered this document as their free and voluntary act and deed.'Checkbox: '☐ I confirm the above statement is true' (notary must check this)Note: Paper form has a pre-printed certification paragraph	Conditional (overseas)	Checkbox must be checked
Notary Signature	Digital Signature Pad or Upload	Label: "Notary Public Signature"Note: For paper-based overseas applicants, this will be a physical signature. For digital: either a signature pad or upload of the signed notarial certificate as a PDF.	Conditional (overseas)	Must not be empty; or upload required
Notary Seal / Stamp	File Upload	Label: "Notary Seal / Stamp"Note: Paper form has 'PLACE STAMP HERE' box — digital equivalent is an upload of the notarial seal or certified documentAccepted formats: PDF, JPG, PNGMax size: 5 MB	Conditional (overseas)	Upload required for overseas applicants
Notary Jurisdiction (seal) — Country/State/Province/County	Text Input	Label: "Notary Commission Jurisdiction (as on seal)"Help: "As it appears on the notary's official seal or stamp"	Conditional (overseas)	Max 200 chars
Notary Commission — 'of' field	Text Input	Label: "Of (city/region)"Note: Paper form has a final 'of ____' line after the jurisdiction — the city or place of the notary's commission	Conditional (overseas)	Max 100 chars

⚠ The Overseas Notarial Certificate section is the most legally complex element of this otherwise simple form. For the digital service, consider whether overseas applicants should upload a completed, notarised PDF of the form rather than filling in the notarial details digitally — this better mirrors the paper process and ensures the notarial seal is captured as part of the certified document.

PAGE 5 — CHECK YOUR ANSWERS (To Be Created for Digital Service)

Purpose: Applicant reviews all entries before submission. Critically important for this form because the email address determines credential delivery.

Sections to display on Check Your Answers:

- Personal Details (NIN, NRN, Full Name)
- Identification Presented (Barbados ID Card / Passport — type selected)
- Home Address
- Mailing Address (if different from Home Address)
- Contact Details (Tel, Cell, Work, Email)
- Email Address — highlighted prominently with an explicit prompt: 'Is this email address correct? Your login credentials will be sent here.'
- Overseas Notarial Certificate details (if applicable)

⚠ The Email Address field should be displayed with special prominence on the Check Your Answers page. Consider adding a dedicated 'Confirm your email address' prompt at this stage, in addition to the email confirmation field on the data entry page.

PAGE 6 — PAYMENT & SUBMIT (No Payment — Declaration + Digital Consent)

Element	Detail
Payment Required?	No — portal registration is free
Declaration Statement	"I hereby make an application for the National Insurance Online Social Security Service and declare that the information given in this form is true to the best of my knowledge and belief. I also agree to my username and password being sent electronically to my above listed email address."
Digital Consent Note	The declaration explicitly includes consent to receive credentials by email. In the digital service, this consent should be surfaced as a clear affirmative checkbox in addition to the signature: '☐ I agree to receive my username and password at [email address]'
Legal Warning	"Any person who knowingly makes a false statement or any false representation for the purpose of obtaining benefit commits a criminal offence punishable by a fine or imprisonment or both."Must be displayed prominently — consistent with legal warning pattern across all NIS forms.
Signature	Digital Signature Pad (canvas-based) with Clear buttonLabelled: 'Signature'
Date	Date Picker — Label: 'Date'Format: YYYY-MM-DD (Year-Month-Day as per paper form)Default: today's date

Element	Detail
Submit Button Text	"Submit Registration"

PAGE 7 — CONFIRMATION & NEXT STEPS (To Be Created for Digital Service)

Element	Recommended Content
Success Message	"Your NIS Online Social Security Service registration has been successfully submitted."
Reference Number	OSS-[YEAR][MM]-XXXXXXXX (e.g., OSS-202603-00001234)
Credential Delivery	"Your username and password will be sent to: [email address entered]. Please check your inbox — including your spam/junk folder. This may take up to [X] working days."
Email Not Received	"If you do not receive your credentials within [X] working days, contact NIS at (246) 431-7400 or customer.service@bginis.gov.bb and quote your reference number."
What You Can Do Online	Once logged in, you will be able to: view your NIS contribution history, check benefit status, update personal details, and access other NIS online services.
For Official Use Only	NIS staff will log: Received By and Date Received in their internal system upon processing this registration.
Contact Information	NIS — National Insurance and Social Security(246) 431-7400 | (246) 467-4NIScustomer.service@bginis.gov.bbFrank Walcott Building, Culloden Road, St. Michael, Barbados

CONDITIONAL LOGIC

Condition (IF)	Action (THEN)	Section
IF applicant is based Overseas	THEN show Overseas Registration section (Notarial Certificate block, Page 4)AND show Notarial Certificate upload field	Eligibility Gate
IF Identification Presented = Passport	THEN show Passport Number field (and optionally Date Issued, Date Expired, Country Issued — per Conditional ID Block pattern)	Personal Info
IF Identification Presented = Barbados ID Card	THEN NRN field is the primary ID — no additional fields needed	Personal Info
IF Mailing Address ≠ Home Address (checkbox unchecked)	THEN show full Mailing Address block (City, State, Postal Code, Country)	Personal Info

Condition (IF)	Action (THEN)	Section
IF Country (Home Address) ≠ Barbados	THEN replace Parish dropdown with free-text State/Province fieldAND show full Country dropdown	Personal Info
IF Email Address confirmation does not match Email Address	THEN show validation error: 'Email addresses do not match. Please re-enter.'	Personal Info
IF Overseas AND Notary Seal not uploaded	THEN block submission: 'Please upload your notarial seal / stamp to complete overseas registration.'	Overseas Section

EMERGING PATTERNS & REUSABLE BLOCKS | Cumulative Series Status

Pattern 1 — Barbados Address Block [STANDARD BLOCK — 7th occurrence]

☑ 7th occurrence. Present on every form in this series. This instance is the most internationally flexible version — City + State/Province + Country fields added for overseas applicants. Recommend creating two variants in the standard template: (A) Barbados Address Block — Street + District + Parish + Postal Code; (B) International Address Block — Street + City + State/Province + Postal Code + Country.

Pattern 2 — Employer Identity Block [STANDARD BLOCK — confirmed across series]

☑ Not directly applicable to this form (individual registration, no employer). Standard Block status confirmed from previous forms.

Pattern 3 — Dual Address Block [New — 1st occurrence]

Home Address + conditional Mailing Address (if different). The mailing address checkbox pattern ('same as above' / unchecked to reveal separate fields) is likely to recur on forms where individuals may have a correspondence address distinct from their residential address — particularly for overseas NIS members or diaspora claimants.

Field	Trigger	Notes
Home Address	Always shown	Standard Barbados or International Address Block
Mailing Address	Shown when 'Mailing address is different from home address' checked	Same block structure as Home Address; both shown simultaneously

Pattern 4 — Overseas Notarial Certificate Block [New — 1st occurrence]

A legally formalised identity verification mechanism for applicants outside Barbados. Includes: Notary Public name, jurisdiction, date, certification statement, notary signature, and seal/stamp upload. More rigorous than the AML/CFT Approved Witness Block (Central Bank form) — requires an internationally commissioned notary public. Likely to appear on any NIS form that overseas members need to submit.

Component	Notes
Notary Public Name	Full name of commissioned notary
Notary Jurisdiction	Country/State/Province/County of commission
Date of Notarisation	Date of personal appearance before notary
Certification Statement	Pre-printed legal text; notary confirms by checkbox + signature
Notary Signature	Physical or uploaded digital signature
Notary Seal / Stamp	Upload: PDF/JPG/PNG, max 5 MB — equivalent to paper stamp box

Pattern 5 — Email as Credential Delivery Channel [New — 1st occurrence]

The email address on this form is not merely a contact method — it is the portal credential delivery mechanism. This is a new pattern where an email field is the single most critical field on the form. The digital service must enforce: (a) email confirmation/re-entry field; (b) prominent display on Check Your Answers; (c) explicit consent to email delivery in the declaration.

Pattern 6 — Work Telephone Field [New — 1st occurrence]

This is the first form in the series to include a Work telephone number in addition to Home Tel and Cell. Should be evaluated for inclusion in the standard Contact Block as an optional fourth field alongside Landline, Mobile, and Email.

Pattern 7 — International Address Block [New — 1st occurrence as variant]

The home and mailing address blocks on this form include City, State/Province, and Country fields in addition to the standard Barbados fields. This international variant should be documented as a parallel standard block to the Barbados Address Block for use on forms accessible to overseas applicants.

OFFICIAL USE ONLY FIELDS (Paper Form: Bottom Banner — Internal Admin)

i Consistent with the pattern established on the Unemployment Benefit Claim (U1/U2), this form has an 'FOR OFFICIAL USE ONLY' banner at the bottom capturing Received By and Date. These fields must not be visible or editable by the applicant in the public-facing digital service — they belong in the NIS staff admin view.

Field Name	Component	Who Completes	Notes
Received By	Text Input or Staff ID	NIS Staff	Name or ID of the NIS officer who received and processed the registration
Date	Date (auto)	NIS Staff	Date the form was received and processed; default to submission date

DECLARATION BLOCK

Field Name	Component	Label / Help Text	Required	Validation
Declaration Statement	Static Text	"I hereby make an application for the NIS Online Social Security Service and declare that the information given in this form is true to the best of my knowledge and belief. I also agree to my username and password being sent electronically to my above listed email address."	—	—
Email Consent Checkbox	Checkbox	Label: "☐ I agree to receive my username and password at [email address]"Note: Email address should be dynamically inserted from the entry above	Yes	Must be checked
Legal Warning	Static Text (prominent)	"Any person who knowingly makes a false statement or any false representation for the purpose of obtaining benefit commits a criminal offence punishable by a fine or imprisonment or both."	—	Must be displayed prominently
Signature	Digital Signature Pad	Label: "Signature"With: 'Clear Signature' button	Yes	Must not be empty
Date	Date Picker	Label: "Date"Format: YYYY-MM-DDDefault: today	Yes	Cannot be future date
Submit Button	Button (Primary)	"Submit Registration"	—	—

FORM COMPLEXITY ASSESSMENT

Complexity Signal	Present?
Single applicant (no looping blocks)	☑ Yes — single individual registration
Looping blocks	☐ No
Conditional logic (IF/THEN rules)	☑ Yes — 7 rules (overseas gate, ID type, mailing address, international address, email confirmation, notary seal)
Branching by registration type (Barbados vs. overseas)	☑ Yes — overseas adds full Notarial Certificate section
File uploads required	☑ Yes — Notarial Seal/Stamp upload for overseas applicants
Payment integration	☐ No
Email as credential delivery channel	☑ Yes — unique pattern; email confirmation field and consent checkbox required

Complexity Signal	Present?
International address support	☑ Yes — City + State/Province + Country fields for overseas applicants
Legal prosecution warning	☑ Yes — consistent with series pattern
Official Use Only fields	☑ Yes — Received By + Date (admin view only)

Overall Complexity: EASY (standard Barbados route) / MEDIUM (overseas route with Notarial Certificate). Standard route: ~22 fields, minimal conditional logic, no uploads, no payments. Overseas uplift: adds Notarial Certificate block (9 additional fields) + notary seal upload + international address variant.

Notes & Edge Cases

1. This form registers an individual for the NIS digital portal. In a mature digital NIS ecosystem, this registration would happen online directly — the paper form is a bridge for people who cannot self-register digitally (e.g., overseas applicants, non-digital users). The form's purpose is therefore transitional.

2. The email address field is the most operationally critical field on the form. A wrong email means the applicant never receives their credentials and cannot access the portal. The digital service must enforce: (a) email confirmation (enter twice), (b) prominent display on Check Your Answers, and (c) explicit email consent checkbox in the declaration.

3. The Overseas Registration section with Notarial Certificate introduces a fully new verification pathway. Consider whether this should be a separate form variant ('NIS Online Social Security Service Registration — Overseas') rather than a conditional section on the standard form, to avoid confusion for Barbados-based applicants.

4. The paper form's address section includes City, State, Postal Code, and Country — making it the only form in this series with an internationally applicable address structure. When the NIS system detects an overseas registrant, the address fields should automatically switch from the Barbados Address Block (Parish-based) to the International Address Block (City/State/Country-based).

5. The 'FOR OFFICIAL USE ONLY' section (Received By / Date) is the 3rd occurrence of this internal admin pattern in the series (also seen on the Unemployment Benefit Claim U1/U2 and the Central Bank Pensioner Declaration). It should be formally documented as a standard internal admin footer block.

6. The National Registration Number on this form is displayed in segmented boxes showing the YYMMDD-XXXX format explicitly. The digital field should enforce this pattern with a visual mask (auto-inserting the hyphen at position 7) for a smoother user experience.
