PAGE 2 — ELIGIBILITY PAGE

Purpose: Confirms the claimant meets the minimum age threshold for their chosen pension type before they proceed. The pensionable age is legislated and varies based on the claimant's date of birth cohort.

> **i** *Eligibility is determined by calculating the claimant's age against the statutory pensionable age timeline. The digital service should derive this automatically from the Date of Birth captured on the Applicant Details page — not ask the claimant to self-declare eligibility. A separate check applies for early retirement (voluntary pension), which requires the claimant to be within a defined window before standard pensionable age.*

Eligibility Check	Basis	Source	Pass Condition	Fail Action
Standard Pensionable Age	Age 66½ (Jan 2014–Dec 2017 cohort) or Age 67 (Jan 2018+ cohort)	Derived from Date of Birth (Section 1) vs. legislated timeline	Claimant has reached or is within 3 months of pensionable age	Display inline message: 'You are not yet eligible to apply at standard pensionable age. You can apply three months before your [66½ / 67th] birthday.'
Early Retirement (Voluntary)	Claimant is applying before standard pensionable age — requires affidavit	Pension type selection in Section 2; date provided by claimant	Date entered is before standard pensionable age AND after a minimum qualifying age (to be confirmed with NIS policy)	Prompt claimant that an affidavit is required and must be uploaded
Deferred Pension	Claimant chooses to defer start date beyond standard pensionable age	Date entered by claimant in Section 2	Deferred date is after standard pensionable age	Validate that deferred date is in the future and after pensionable age
Late Submission Check	Claim submitted more than 12 months after eligibility date	Derived from pensionable age vs. today's date	Submission is within 12 months of eligibility date	Display statutory warning: 'You may be applying late. Failure to apply within 12 months of eligibility may result in partial loss of benefit. You must attach a letter explaining the reason for lateness.'

PAGE 3 — APPLICANT DETAILS (Paper Form: Section 1 — Personal Details)

PAGE 4 — CRITERIA & ENTITLEMENT PAGE (Sections 2 & 3: Retirement Details + Employment Details)

Purpose: Captures the claimant's pension type selection, retirement date, current or last employer, and directorship status. These are the core entitlement-determining inputs that shape the rest of the claim.

Section 2 — Retirement Details: Pension Type Selection

> ⚑ *This is the most consequential branch point in the form. The pension type selected determines: (1) which date field appears, (2) whether an affidavit is required, and (3) how the claimant's benefit amount is calculated. The digital service must clearly explain the three options — including their implications — before asking the claimant to choose.*

Pension Type	Component	Date Field Triggered	Required	Additional Requirement
Standard Pensionable Age	Radio Button	None — date auto-derived from DOB + pensionable age	Yes (if selected)	None
Early Retirement (Voluntary Pension)	Radio Button + Date Picker	Label: "Early retirement date"Format: MM/DD/YYYYHelp: "The date you wish your early pension to begin"	Yes (if selected)	Affidavit upload required (see Evidence Upload page)

PAGE 5 — EVIDENCE-BASED QUESTIONS (Paper Form: Section 4 — Employment History)

Purpose: Collects the claimant's employment contribution history, including the first year of NIS contributions and details of any overseas employment. The overseas employment sub-table is a looping block — each country of employment adds a new row.

NIS Contribution Start

Field Name	Component	Label / Help Text	Required	Validation
First NIS Contribution Year	Number Input / Year Picker	Label: "Indicate the year in which you first paid NIS contributions"Placeholder: "e.g., 1985"Help: "Check your NIS card, payslip, or employer records if unsure"	Yes	4-digit year; cannot be future year; must be ≤ current year; must be after claimant's 16th birthday year

Overseas Employment Block ☑ Applies — Looping Block (First confirmed occurrence in NIS series)

> ⚠ *First occurrence of an overseas employment looping block in this form series. The digital service must support adding multiple rows — one per country of overseas employment. Each row captures country, from/to dates, and overseas social security number. There is no stated maximum, but a practical UI limit (e.g., 10 entries) with an 'Add another country' button is recommended.*

Field Name	Component	Label / Help Text	Required	Validation
Has worked overseas?	Radio Buttons	Label: "Have you ever worked as an employed or self-employed person in any other country outside of Barbados?"Options: Yes | No	Yes	If 'No': skip overseas table entirely. If 'Yes': show looping table below.

i *The overseas employment history is cross-referenced by NIS to determine whether the claimant may be entitled to a benefit from an overseas social security system, or whether bilateral agreements apply. Overseas social security numbers should be treated as free-text — no fixed validation pattern, as formats vary by country.*

PAGE 6 — EXTERNAL EVIDENCE UPLOAD PAGE

Purpose: Collects the five required supporting documents for this claim. Some documents are conditional (Marriage Certificate, Decree Absolute, Affidavit) based on the claimant's circumstances and pension type selection. REQUIRED for this form.

> ⚠ *For claimants resident outside Barbados, all documents must be notarised copies. The digital service should detect overseas residency (from the address block or an explicit residency question on the Start Page) and display this requirement prominently before the upload section.*

Document	Accepted Formats	Max File Size	Required	Condition / Notes
Barbados Identification Card	PDF, JPG, PNG	5MB	Yes	Required for all claimants
Original Birth Certificate	PDF, JPG, PNG	5MB	Yes	Required for all claimants
Original Marriage Certificate	PDF, JPG, PNG	5MB	Conditional	Required if claimant is married or widowed
Original Decree Absolute	PDF, JPG, PNG	5MB	Conditional	Required if claimant is divorced

Bank Account Proof	PDF, JPG, PNG	5MB	Conditional	Required if claimant requests direct bank deposit (Section 6). Must be bank statement header or official bank stamp verifying account details. Overseas pensioners must include relevant banking codes (SWIFT/IBAN).

> **i** *The digital service should dynamically show or hide upload slots based on conditional logic. For example: if pension type = 'Early Retirement', show the Affidavit upload. If marital status = 'Married', show Marriage Certificate. If marital status = 'Divorced', show Decree Absolute. These uploads should not all appear by default — only what applies to the claimant's situation.*

INTERMEDIATE PAGE — ALTERNATE PAYEE DETAILS (Paper Form: Section 5)

Purpose: Allows the claimant to nominate a third person to receive the pension on their behalf. This is a full personal details block — equivalent in depth to the Applicant Details page — applied to the alternate payee. Only shown if the claimant chooses to nominate an alternate payee.

> 🚩 *SECOND FULL PERSONAL BLOCK: Section 5 (Alternate Payee) replicates the full set of personal detail fields from Section 1 — including NIN, NRN, Name, Address, DOB, Tel, Cell, and Email — for a different person. This is the first form in this series where a complete secondary personal block appears. The digital service must clearly label this as 'Details of the person who will receive your pension' and distinguish it visually and structurally from the claimant's own details.*

> ⚠ *The claimant must first confirm they wish to nominate an alternate payee. If they select 'No' or skip this section, the entire Alternate Payee block must be hidden. This is a single-level IF/THEN conditional gating an entire page.*

Field Name	Component	Label / Help Text	Required	Validation
Nominate Alternate Payee? Purpose: Allows the claimant to authorise direct bank deposit of their pension. Optional but strongly encouraged. If provided, bank account proof must be uploaded (see Evidence Upload page).

> ℹ *The paper form states: 'I hereby authorize payment in respect of this benefit to be lodged to the Bank Account given below.' The digital service must make this an explicit opt-in. Claimants who do not complete banking details will be paid by alternative means (cheque or collection) — the Confirmation page should advise on the default payment method.*

Note 1 — Pensionable Age Timeline Implementation

The legislated pensionable age is 66½ for those reaching pensionable age between January 1, 2014 and December 31, 2017, and 67 for those reaching pensionable age on or after January 1, 2018. The digital service must implement this as a calculation, not a dropdown — deriving the applicable age from the claimant's Date of Birth. Half-year (66½) precision should be implemented as 66 years and 6 months from date of birth.

Note 2 — Late Submission Letter

The paper form states that if a claim is submitted late, a letter explaining the reason must be attached. In the digital service, this must be a required text input (or file upload of a pre-written letter) that is triggered when the system detects a late submission. The claimant must not be able to proceed without completing this — but the submission must not be blocked, as lateness does not prevent submission, only affects benefit amount.

Note 3 — Overseas Claimants

For claimants resident outside Barbados, the form requires notarised copies of all documents. The digital service should ask about overseas residency early (Start Page or Applicant Details) and use this flag to: (a) display the notarisation requirement on the Evidence Upload page, (b) activate the overseas banking codes field in Section 6, and (c) adjust the witness/notarisation guidance throughout.

Note 4 — Director Status

The question 'Are you a director of a company?' is not explained on the paper form. In the digital service, help text should clarify that this includes current or recent directorships of any company, including small or family-owned businesses. A 'Yes' response should be flagged for NIS officer review — it may affect how contributions were assessed and whether benefit eligibility is affected.

Note 5 — Alternate Payee Legal Authority

The paper form does not specify what legal authority is required for an alternate payee to be nominated. In the digital service, help text should clarify that the alternate payee is typically used when the claimant is incapacitated or unable to collect payments. NIS policy input is required on whether a power of attorney or similar document must be provided.

Note 6 — Banking Details for Overseas Pensioners

Overseas pensioners may need to provide SWIFT codes, IBANs, routing numbers, or other country-specific banking codes. The digital service should use a flexible free-text field for overseas banking codes, with country-specific help text where possible. NIS may wish to maintain a reference list of required codes by country.

Note 7 — First NIS Contribution Year

Claimants may not remember or have records of their first contribution year. The digital service should include help text suggesting they check their NIS card, old payslips, or contact NIS directly. An approximate year should be accepted — NIS will verify against their records during processing.

Note 8 — Third-Party Signing

The paper form allows someone else to sign on behalf of the claimant. In the digital service, this must be handled carefully — ideally with a checkbox that activates a declarant name field, and a clear statement that the declarant is attesting to the accuracy of the information. NIS may require additional verification for third-party-signed claims.
