PAGE 2 — ELIGIBILITY (Covered by Start Page Gate)

The eligibility conditions for this form are binary and should be surfaced as an inline gate on the Start Page rather than a separate page. If either condition fails, the applicant should be redirected to an ineligibility notice immediately.

Eligibility Condition	Component	Gate Logic
Are you 60 years of age or older?	Radio: Yes | No	If No → show ineligibility message and stop
Do you currently reside in Barbados?	Radio: Yes | No	If No → show ineligibility message and stop

⚠ Neither eligibility condition appears on the paper form — they are implied by the form title. A digital service must make them explicit before accepting any input.

⚠ The paper form captures a single "Telephone Number". The digital service should follow the standard Contact Block and offer separate Landline and Mobile fields, requiring at least one.

PAGE 4 — CRITERIA & ENTITLEMENT (Paper Form: Fields 7–8)

Purpose: Collects the pension and account details that establish the applicant's entitlement to the tax exemption. These are not yes/no eligibility gates — they are factual entitlement fields that link the declaration to a specific pension source and bank account.

⚠ Field 7 on the paper form ('Source of Pension and Reference Number') combines two logically distinct pieces of information. These should be separated in the digital form: Source of Pension (who pays your pension) and Pension Reference Number (your ID with that pension provider).

⚠ The approved witness requirement is governed by Appendix 5 of the Central Bank's AML/CFT Guidelines (www.centralbank.org.bb/aml-cft). The digital service should display the approved occupations list inline and provide a link to the full guidelines. Consider adding a Witness Occupation verification dropdown to ensure only approved witnesses are accepted.

EMERGING PATTERNS & REUSABLE BLOCKS

Pattern 1 — Barbados Address Block (with District field) [Confirmed — 2nd occurrence]

Street Address → District → Parish. First seen in NIS Self-Employment Registration. Now confirmed in this form. With two occurrences, one more form will qualify this for promotion to a standard block.

Pattern 2 — Approved Witness Block [New — 1st occurrence]

Collects Signature, Print Name, and Occupation of a legally approved witness. Governed by AML/CFT guidelines. Likely to appear in other Central Bank, BRA, and legal/notarial forms. Should be tracked for standardization when seen in a second form.

Field Name	Component	Required	Notes
Witness Signature	Digital Signature Pad	Yes	Canvas-based; Clear button required
Witness Print Name	Text Input	Yes	Max 100 chars
Witness Occupation	Dropdown + Other	Yes	Maps to AML/CFT Appendix 5 approved list

Pattern 3 — Pension Details Block [New — 1st occurrence]

Source of Pension + Pension Reference Number form a reusable block for any form that needs to verify a pensioner's entitlement. Likely to reappear in MoF pension forms, NIS Old-Age benefit applications, and land tax rebate forms.

Field Name	Component	Required	Notes
Source of Pension	Dropdown + Other / Text Input	Yes	Consider pre-populating with common Barbados pension providers
Pension Reference Number	Text Input	Yes	Alphanumeric; max 50 chars

FORM COMPLEXITY ASSESSMENT

Complexity Signal	Present?
Single applicant (no looping blocks)	☑ Yes
Looping blocks (household members, education, etc.)	☐ No
Conditional logic (IF/THEN rules)	☑ Yes — 4 rules (2 eligibility gates, 2 minor field conditionals)
Branching by applicant type	☐ No
File uploads required	☐ No
Payment integration	☐ No

Complexity Signal	Present?
Multi-party signatures	☑ Yes — Pensioner signature + Approved Witness signature
Multi-MDA routing	☐ No
Professional vouching / approved witness	☑ Yes — AML/CFT Appendix 5 approved witness required
Technical specifications required	☐ No

Overall Complexity: EASY — 14 fields, 4 conditional rules, no uploads or payments. Complexity uplift: dual signatures and AML/CFT approved witness requirement add a unique verification step not present in standard forms.

Notes & Edge Cases

1. The paper form is a single page. The digital service should restructure this as a 3-step wizard: (1) Eligibility + Personal Details, (2) Pension & Account Details, (3) Declaration & Witness — followed by Check Your Answers and Confirmation pages.

2. The dual-signature requirement (pensioner + witness) is the most complex aspect of digitising this form. Consider whether the witness can sign digitally in the same session, or whether a separate witness verification step (e.g., email/SMS link to witness) is needed.

3. Field 7 on the paper form combines 'Source of Pension' and its 'Reference Number' on one line. These must be separated into two distinct fields in the digital service.

4. The approved witness occupation list (AML/CFT Appendix 5) should be embedded in the form as a help panel and linked to the full guidelines document. The digital form should validate that the witness occupation matches the approved list.

5. No renewal mechanism exists on the paper form. The digital service should record the submission date and trigger a renewal reminder workflow at an appropriate interval, as the Central Bank may require periodic re-declaration.

6. The paper form's title references 'avoiding tax being withheld from interest income' — not a land tax rebate. The title of this analysis has been corrected accordingly. Confirm with Central Bank whether a separate land tax rebate form exists.
